

EternaBond offers a complete line of MicroSealant Tapes for RV maintenance and easy EMERGENCY repair solutions for the RVer.

Features/Benefits:

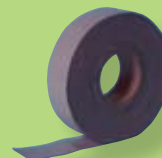

- Easy to use EternaBond MicroSealant tapes incorporate the most current microsealant technology available: more advanced than butyls, self-leveling sealants, caulks and adhesives. One application of EternaBond on a roof seam = 10 trips to the mechanic to have the sealant re-applied.
- Safely fuses to all RV surfaces including rubber, TPO, aluminum and fiberglass roofs; water tanks (polyethylene, ABS, etc) & awnings.
- Eliminates costly and messy roof seam maintenance.
- One time, one step installation (in most cases).
- In many cases will outlive the roof.
- 25 year limited warranty.
- Used in the RV industry for over 10 years.
- Currently used by over 35 RV manufacturers as original equipment.
- No waste, no mess, no clean-up!
- Guaranteed not to harden, crack, peel, curl up at the edges, or fall off.
- In operation temperature range of -70°F to over 200°F.
- Resists mold, bacteria and fungus growth.
- UV stable.
- Environmentally friendly and stable.
- One product for most RV sealing jobs.
- Recommended by top RV and Roofing Experts!

FIX ALMOST ANYTHING:

- Roof Seams • Roof tears and holes • Vent and skylight installation • Vent and Skylight leaks and cracks
- Most water tank cracks and holes • Most awning tears
- Leaking windows and sliderooms

MICROSEALANT PUTTY TAPE™

MicroSealant Putty tape fuses at a molecular level to virtually any surface (except silicone), does not get hard and lose it's grip like other butyl putty tapes, self leveling sealants or caulks. Stays flexible at extreme temperatures. 100% water proof and non hydroscopic. MicroSealant Putty tape is perfect for sealing around floor and wall penetrations to keep bugs and weather out, and for easy, error and leak-free installation of roof vents and skylights. Safe for all roofs and finishes including EPDM, TPO and polycarbonate! Available in 2" x 4' handy emergency repair rolls, 2" x 25' or 50' professional rolls, or in a "Roof Vent Installation Kit" which includes everything to install a 14" x 14" roof vent.

HEAVY DUTY ALUMINUM TAPE®

Thick 4mil high grade aluminum combined with EternaBond sealant. Strong enough for most water tank repairs. Can be painted.

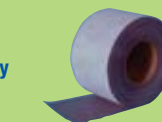

ROOFSEAL ROOF MAINTENANCE AND REPAIR TAPE™

UV stable backing with 27mils of microsealant, RoofSeal safely fuses at a molecular level to any roof on any RV! Simplified roof seam maintenance because RoofSeal can be applied right over the old seam (no more scraping!) and unlike all other sealants that have to be periodically removed and replaced over the life of the RV, RoofSeal is a true, "One and Done" final answer to roof maintenance. Available in 2" x 4' RV EMT (emergency repair rolls) 6" x 10' "One and Done" Roof Seam Restoration roll; 4" x 25' and 50' professional rolls, all available in custom widths up to 48". Same characteristics as MicroSealant Putty Tape.

WEBSEAL PRE-ROOF COAT FABRIC TAPE®

Coating an RV roof doesn't make it water tight, but using EternaBond WebSeal does. Apply WebSeal MicroSealant tape over all roof seams, vent and skylight flanges, and any rips, holes or tears to make your roof 100% leak free and water tight before applying your favorite roof coating. The coating makes your roof cool, the WebSeal makes your roof water tight. Also great for fixing tears in awnings. Available in 4" x 5' clamshell packages, 4" x 25' and 50' professional rolls, all available in custom widths up to 48". Same characteristics as MicroSealant Putty Tape.

ETERNA CLEAN™

Clean most dirty surfaces or machinery, bearings, etc. with our proprietary mixture of "hot" solvents specially designed to loosen grime and dissolve grease and oxidation.

RV EMERGENCY MicroSealant TAPE

Repairs and restores almost any hole, tear or crack on RV surface from the roof to the water tanks. Try the only industrial MicroSealant available to the RV industry!

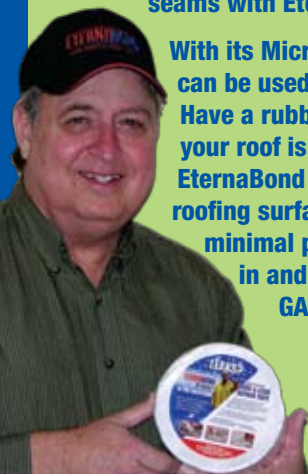

• EASY TO USE

WHAT ARE THE PROS SAYING?

"I have been recommending EternaBond's MicroSealant tape ever since I first used it. You'll hear me talk about it in every one of my RV Doctor Exterior Care Seminars. I even featured it on the "RV Roadtrips" television show. I've long been a proponent of annual preventive maintenance for all RVs. With EternaBond OneStep Miracle RV Roof Tape, one PM task just got a whole lot easier. If you consider yourself a "serious RVer," do yourself and your RV a favor; seal all your roof components and seams with EternaBond Tape.

With its MicroSealant technology, EternaBond can be used on virtually any RV roof surface. Have a rubber roof? A fiberglass roof? Maybe your roof is aluminum or TPO; no problem. EternaBond Miracle Roof Tape sticks to any RV roofing surface, quickly and easily....and with minimal preparation. Just peel, stick, rub it in and drive away."

GARY BUNZER, THE RV DOCTOR

TECHNICAL WRITERS:

TRAILER LIFE – JUNE 2000 By Bob Livingston

"When I first saw EternaBond, I shrugged and thought it was just another tape, no better than self-leveling sealers. But after trying it, Boy - did this stuff stick!!"

TRAILER LIFE – APRIL 2009 By Bob Livingston

"After 10 years in use, It's still stuck! When EternaBond says their tape lasts a long time, that's an understatement. I recommend it for repairing tears, holes and leaks, and it's ideal for Preventative Roof Maintenance projects - BEFORE the leaks start!"

HIGHWAYS MAGAZINE – MARCH 2009

"You can repair awning tears with EternaBond, this stuff is incredibly strong and sticky."

INDUSTRY PROFESSIONALS:

RV PRO – SEPTEMBER 2007

"When I recommend a product to my customers, they expect it to work. That's why I recommend EternaBond."

– Tom Jones, Brunks RV Sales, Salem, OH

RV PRO – MAY 2008

"EternaBond's products are very easy to apply and have provided us with 100% customer satisfaction in dealing with troublesome leaks. The adhesive backing is absolutely amazing along with the MicroSealant composition, which provides a winning combination for sealing leaks.

EternaBond also offers great customer service and has been able to answer our questions quickly as well as ship product to us promptly."
– Jon & Lucene Steele, Raystown Recreation Camping Ctr, RAYSTOWN, PA

RV OWNERS: TRAILER LIFE – MAY 2008

"I recently purchased a used RV that had signs of water leaks. I purchased a 50' roll of EternaBond MicroSealant tape and went up on the roof knowing this would be a permanent fix. Without even removing the existing sealant I cleaned the areas and applied EternaBond to all seams. Not only does it look great, more importantly, I have had no leaks since!"
– Craig Nardone, RV Owner
