

ETERNABOND EternaPocket

Basic Use

EternaPocket is ideal for new and re-roof commercial systems. The EternaPocket is 24 gauge precut galvanized steel that can be easily folded from 4"X4" to 12"X12" to accommodate most all piping penetrations. The EternaPocket system incorporates EternaBond DoubleStick for a watertight seal. DoubleStick provides instant bonding to all surfaces, except silicone. This allows the EternaPocket to be installed on non-nailable deck surfaces. The EternaPocket can be flashed with EternaBond RoofSeal 6" (sold separately).

Composition

The EternaPocket pitch pocket system incorporates the 24 gauge metal pocket with the EternaBond Pitch Pocket Sealant. The pitch pocket comes with EternaBond DoubleStick for securing the pocket and creating a watertight seal. Extra DoubleStick is provided to seal around the roof penetrations for added protection.

EternaBond Pitch Pocket Sealant (sold separately) comes in a convenient 28 oz. caulk tube. The self leveling contents of the tube is enough to fill one 4"X4" pocket.

Technical Data

Surface Preparation

Surface must be clean and dry. Moisture, dust, dirt, or other foreign matter should be removed. Remove oil and grease, etc. with EternaClean or a non residue cleaner such as acetone or lacquer thinner. Remove salt and other contaminants.

Application

Nominal Size	You need	#4500 Sealant*	A	B	C	D	E
4 X 4	One 4 X 4	One Tube	4"	4"	2-1/2"	10"	10"
4 X 12	Two 4 X 4's	Three Tubes	4"	12"	2-1/2"	10"	18"
8 X 8	Two 4 X 4's	Four Tubes	8"	8"	2-1/2"	14"	14"
12 X 12	Three 4 X 4's	Eight Tubes	12"	12"	2-1/2"	18"	18"
